Here are some known issues and solutions.. there are many of them. Check the directory "C:\games". If you do not find it there, refer to your video game manual. Basically, if you want to install and run "Snakes & Arrows", you need: VLC Media Player; a "Snakes & Arrows" archive (. \*zip) file; a DVD containing the. Snakes & Arrows/VLC.Q: MobileFirst - Java Base64String input I have an issue when trying to use base64encoded password in form. I set the property mobilefirst.security.mechanism.access.scramble as true and tried to connect to the server. I got as error: { "cause" : "The server encountered an internal error that prevented it from fulfilling this request.", "exception" : "io.restclient.RestClientException", "errorCode" : "INVALID\_PARAMETER", "message" : "INVALID\_PARAMETER" } When I use only plain text as input for form, it works. Have you got any idea, how to fix it? A: If you are using the Android client MobileFirst for Worklight V7.0, you need to configure the "extra" environment variables like this (on the login screen for the app) TOKEN\_AUTH\_STRING (and the others...) = Base64 Encoded string The reason why some info such as "extra" env variables need to be specified and others are not, is because some of them are used by MFP for Worklight specific properties and maybe some are used by the app itself. In this case, you would need to specify them in this order: App Properties. Personal properties. Worklight environment properties. MobileFirst environment properties.

Let's be honest... this is the era of
